Stanley Mouse is one of the most iconic and influential artists of the 20th century. His psychedelic posters for the Grateful Dead, Jimi Hendrix, and other legendary musicians helped to define the look and feel of the 1960s and 1970s.

Mouse was born in Oakland, California, in 1940. He began drawing at an early age, and by the time he was a teenager, he was creating his own psychedelic art. In 1966, he met the Grateful Dead, and soon after, he began designing posters for the band. These posters quickly became some of the most popular and sought-after psychedelic posters of the era.

Mouse's art is characterized by its vibrant colors, flowing lines, and intricate detail. He often incorporates elements of nature and mythology into his work, and his posters often feature images of animals, plants, and cosmic beings. His work has been exhibited in museums and galleries around the world, and it is collected by fans of rock and roll, psychedelic art, and California culture.

This book collects over 400 of Mouse's most iconic images, including many that have never been published before. It is a must-have for any fan of rock and roll, psychedelic art, or California culture.
