

Decision in Normandy: The Unwritten Story of Montgomery's Victory in Operation Overlord

Decision in Normandy is the untold story of Field Marshal Bernard Montgomery's role in the Allied victory in Operation Overlord. Based on extensive research, Carlo D'Este's account challenges the traditional view

of Montgomery as a cautious and unimaginative commander, and reveals him to be a brilliant strategist who outmaneuvered the Germans at every turn.

D'Este argues that Montgomery's decision to land the British and Canadian forces on the beaches of Normandy, rather than the more heavily defended Pas-de-Calais, was a stroke of genius. He also shows how Montgomery's careful planning and execution of the invasion led to the Allies' rapid advance through France, and ultimately to the liberation of Paris.
