On August 14, 1972, the RMS Queen Elizabeth 2 set sail from Southampton, England, on a transatlantic voyage to New York City. Aboard the ship were 1,796 passengers and 979 crew members. Among them were a diverse group of people from all walks of life: families on vacation, businessmen and women on their way to important meetings, and young people embarking on new adventures.

Just after midnight on August 19, as the Queen Elizabeth 2 was sailing off the coast of Nantucket, Massachusetts, a fire broke out in the ship's engine room. The fire quickly spread, engulfing the entire ship in flames. The passengers and crew were forced to abandon ship, and within hours, the Queen Elizabeth 2 sank to the bottom of the Atlantic Ocean.

In the aftermath of the disaster, there were only 29 survivors. They had spent hours in the water, clinging to life rafts and debris. They had witnessed the deaths of their loved ones and friends. They had endured unimaginable hardships and suffering.

But they had also survived. And their story - the story of the survivors of the RMS Queen Elizabeth 2 - is a testament to the human spirit and the power of hope.

A Survivor's Story

He was awakened by the sound of the alarm and the smell of smoke. He grabbed his life jacket and rushed to the deck.

The deck was chaos. People were running and screaming, trying to find a way to escape. John made his way to the lifeboat station, but the lifeboats were already full. He was forced to jump into the water.

John spent hours in the water, clinging to a piece of debris. He saw the ship sink beneath the waves. He watched as his friends and loved ones died. But he never gave up hope.

Finally, John was rescued by a passing ship. He was taken to a hospital in Boston, where he was treated for his injuries. He was one of the lucky ones. He had survived the sinking of the RMS Queen Elizabeth 2.
